Portfolio Website

PROFILE

Computer Engineering graduate (B.E. 2026) interested in software development, AI/ML, and building practical applications.

EDUCATION

Vidyavardhini's College of Engineering and Technology

2026

Bachelor of Engineering in Computer Engineering

EXPERIENCE

Freelance Web & Backend Developer

2024 – Present

- Developed responsive websites and lightweight web applications for freelance and personal projects.
- Built backend functionalities, REST APIs, and deployment workflows using Python, FastAPI, Node.js, and JavaScript.
- Worked on deployment, debugging, optimization, and integration of AI-powered features.

Web Developer Intern — Yuvas Film Production

Jan 2025 – Mar 2025

- Developed responsive web applications using React.js, JavaScript, HTML, and CSS.
- Assisted in backend integration, debugging, testing, and deployment processes.

PROJECTS

Conscia: AI-Powered Ethical Shopping Companion

- Developed an AI-powered recommendation platform for ethical product analysis and intelligent shopping workflows.
- Presented the research project at IEEE technically co-sponsored IC3ET 2026 conference.

VoiceBrief-AI

- Built an AI-powered voice transcription and summarization backend system.
- Integrated speech-processing pipelines with NLP-based summarization workflows.

Multilingual-ASR

- Developed multilingual speech-to-text processing and AI inference workflows.

Flappy Bird Game System

- Built an interactive game implementing real-time rendering and collision detection logic.
- Secured 1st Place at VNPS Project Showcase.

ACHIEVEMENTS

- Presented “Conscia: An AI-Powered Ethical Shopping Companion” at IEEE technically co-sponsored IC3ET 2026 conference.
- Secured 1st Place at VNPS Project Showcase for Flappy Bird game system.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, SQL

Backend: FastAPI, Node.js, Express.js, REST APIs

Frontend: React.js, HTML5, CSS3

AI / ML: NLP, Recommendation Systems, Speech Recognition, RAG Systems, AI Inference Pipelines

Libraries / Tools: Streamlit, Git, GitHub, Postman, MySQL
